SPECIAL OFFER ON CUTFLOWER PLANTS

Large Plants in 6 to 8" pots, growing in Osmunda. This lot includes many Stuart-Low hybrids, such as Lo. Allison, Lo. Sheerness, Lo. Ceylon Bounty, Lo. Banner, Lo. Jevington, Lo. Southport, etc.

Many of these plants will consist of 12 to 15 full size bulbs or more, not seedling bulbs. This means most plants will have multiple leads, which of course means more flowers per plant. Most of the plants can be divided into 2 or more divisions.

This is the best lot of blooming size plants we've been able to offer in several years at low prices. The only reason these plants are being offered is due to lack of space, they are all good plants producing outflowers for the market. At the prices quoted the plants should more than pay for themselves the first flowering.

All plants will be labelled with their correct name. These are offered in a mixed lot at \$28.50 for 5 plants, \$52.50 for 10 plants, \$125.00 for 25 plants. This offer is subject to withdrawal at anytime. Please order early to avoid disappointment.

SPECIAL OFFER ON SEEDLINGS

Plants in 3" pots ready to transplant into 4 or 5" pots. Special Price \$3.50 each, 6 plants for the price of 5 (\$17.50), 13 plants for the price of 10 (\$35.00). Most of these plants should flower within one year.

Lo. Mem. Albert Heinicke X (C. Guttata Leopoldii x Lo. Harrietta). If this cross turns out as well as a similar cross we will get some Very Fine Reddish Plum shades. One parent is almost Blood Red and the other is a Famous Golden Yellow with a Deep Red Lip. Some plants could have Yellow or Orange Flowers. This will also be a prolific bloomer producing up to 10 or more flowers to a spike, and a good keeping outflower. We consider this a worthwhile gamble to get an outstanding hybrid at a reasonable price.

Cattleya Mrs. Pitt. A cross between C. Dowiana Aurea and C. Harrisoniana. This is a worthwhile Dark Rose Lavender with a Gold Throat. Plants will produce 4 or 5 Medium Size Flowers per spike. A fine compact grower and an excellent corsage flower.

C. White Sails X C. Violet Dombrowski. This will be a Fine, Large White for Easter and Mother's Day. Plants will be heavy producers producing up to six flowers per stem. This is also a fast growing plant.

Lo. Lloyd Wallar, extra choice X Lo. Hardypas, var. Excellence. We expect some Fine, Round, Award Type Flowers from this cross, as both parents are of award quality, with Fine Substance. Blooming season will be August to September.

Lo. Mem. Albert Heinicke X C. Aclandiae. Flowers will have Very Heavy Substance. We Expect Plants to Produce up to 5 Flowers per spike. Color will be Yellow to Green with Reddish Fuchsia Lips and Some Plants will have Reddish Spots on the Sepals and Petals. Flowers will be long lasting. This is one of the much sought after unusual crosses.

RAIN FOREST MEXICAN TREE FERN FIBER

This is not a new material for growing orchids in, but has been used for many years in Mexico, Central and South America. It is long lasting and does not break down fast due to Mycelium Fungus as does Fir Bark. If you are having trouble growing plants in fir bark we suggest you try Tree Fern Fiber. This material is easy to pot in and requires no special skill.
